**PRISM FLAGSTICKS**

Presenting two ways to make laser distance measuring devices easier to use and more accurate on your golf course. Our Prism Flagsticks integrate the reflecting prisms into the body of the flagstick while our PinSite® Reflector screws onto the flagstick in place of the acorn nut.

- For use with all laser golf distance measuring devices including Bushnell®, Laser Link®, Leupold®, Nikon®, Callaway® and others.
- Premium glass prisms for maximum accuracy.
- Prism Flagsticks (available in ½ in. and ¾ in. tapered) are machine drilled, allowing precise insertion of prisms.

# COURSE MARKINGS

NEVER COMPROMISE  
THE GOLF EXPERIENCE

### The ultimate sign of quality.

Nothing helps elevate the perception of course status more than cast metal course signage. But the prohibitive cost of foundry-produced cast signage can be out-of-bounds for most. Now with Par Aide's line of FusionCast signage, aluminum or bronze metal signs, plaques and markers are within reach.

Our FusionCast signage uses a patented technology that fuses metal with high density urethane (HDU), resulting in dimensional plaques and markers that look, feel and perform like foundry-poured signs, but without the excessive weight and high production costs.

This unique cold-casting technology also lets us create highly detailed customized signs. Emblazon your brand onto tee markers and plaques, in-ground tee and fairway yardage plaques, cart path pyramids, sponsor signs, facility wayfinding signs and tee signs. Every FusionCast sign is available in aluminum or bronze and adds an elegance that enhances the brand of your facility.

Par Aide FusionCast markers and signs are available in a range of stock template shapes, sizes and mounting configurations. Best of all, our FusionCast signs are proven to perform exceptionally in the harshest climates, providing the richness and rugged durability you expect from high-quality metal signage.

**TEE SIGNS**

Our tee signs are the perfect way to enhance the branding of your course on each tee box. These products are completely customizable to the detailed specifications of your course creating endless possibilities including:

- Custom tee yardages.
- Full color domed or sleek cast metal logos.
- Domed hole layouts.
- Aluminum or bronze metal.

If you are looking for a full color logo, our super durable and weather resistant domed acrylic logos give your FusionCast signs a look that pops. Further customize each tee sign with a detailed, full color hole layout with our acrylic domes. Another great feature and gives golfers an aerial view of each hole.

#### ACCUFORM ACCUSEED™

The Accuform AccuSeed is the perfect spot seeding tool. The specially designed stainless steel spring loaded spikes puncture the turf  $\frac{3}{16}$  in. deep while dropping bent grass seed precisely into the holes, allowing for ideal seed to soil contact. Grass seed is easily filled into the black housing and is only released when the spring-loaded head compresses. There is minimal impact to the surface, due to the flat surface of the seed housing, which causes little disruption to play. 43 in. tall (109 cm).
